## 40 Pages of BIG BARGAINS

for those who intend to  
**BUILD-IMPROVE-REPAIR**

### CONDITIONS OF THIS SALE:

Quick action! That's the big thing. 60 days is the limit to this tremendous PRICE SLASHING event. First come, best served. Remember that our mammoth 20-acre busy beehive of bargains is the market place for MILLIONS. Countless thousands of experienced buyers from ocean to ocean are holding off buying until they receive this annual price-slashing book of bargains. Then, they go for them with a will. The record breaking low prices in this book make it a gigantic magnet that will swiftly draw an enormous volume of business. As soon as Uncle Sam's Mails distribute it to the people of this country, an overwhelming tide of orders will pour in on us from farms, homes and factories in every section of the country.

So don't delay. Promptness pays. Order at once—RIGHT NOW. The time is here—the chance is yours. Grasp it! Bargains like these wait for no man. So strike while the iron is hot. Help yourself liberally to the unprecedented bargains in this book. Buy for both your present and future needs. Order to the limit—the more you spend, the more you save. Better be safe than sorry. Every article in this book is a necessity—every price a true economy. And remember—this Sale lasts but 60 days and orders will be filled strictly in rotation as received. So use the order blank enclosed and mail it promptly. STOP—READ—THINK—ACT!

### EVERY ARTICLE GUARANTEED

Remember—ten million dollar (\$10,000,000) guarantee stands back of every article in this book. Satisfaction is yours or no sale. Every article must be exactly as represented or—your money back without a cross word or quibble.

### TERMS AND SHIPMENTS

Unless otherwise stated in the description of the article, our terms are as follows—cash in full, or 25 per cent with all orders. Balance to be paid C. O. D., draft attached to Bill of Lading. All prices in this book are f.o.b. cars Chicago except where stated in the descriptions as being shipped from factories, warehouses or points of purchase. Shipping points other than Chicago are plainly noted in the descriptions.

## FREE! 230 PAGE CATALOG

## **Rawhide Stone Faced**

**Guaranteed  
for 20 Years**  
**Red or Gray**

We replace, free of charge, every roll of **GOLD MEDAL ROOFING** that proves defective in quality within the term of our Guarantee.

The best grade of felt, the highest quality of asphalt and the best method known of saturating are all combined in this product.

Our perfection in the weather-resisting surface, known to no other class of material, is due to years of experiments and enables us to place the above guarantee on this material.

Gold Medal Rawhide Stone Faced Roofing is fire and lightning resistant and will not ignite from flying brands or sparks.

Regulation  $\frac{3}{4}$ -inch nails or long nails for over shingles, packed complete with cement enough to lay every roll.

No. 13-EX-9019. GOLD MEDAL ROOFING, 20 Year Guarantee, complete with nails and cement.

Per roll of 108 square feet. **\$2.35**

### **Special-Selected Mill Ends**

Under this heading we offer you brand new, 85 to 90 pound slate coated roofing put up in full rolls of 108 square feet, complete with nails and cement. All rolls running about two to three lengths to the roll—furnished in red or gray-green. No. 13-EX-9021. Special selected Mill ends.

Per roll of 108 square feet. **\$1.75**

### **Slate Roofing Seconds "As Is"**

We buy from various manufacturers, slate coated seconds, more or less defective in surfacing. 85 to 90 pounds stock—could be used with the underside exposed and the defective side next to the roof or with a good coat of heavy paint will make a lasting roof covering.

No. 13-EX-9022. Slate seconds, unselected, full rolls of 108 square feet complete with nails and cement.

Price per roll. **\$1.50**

### **Stamped Like Shingles**

A limited quantity of 85 to 90 pound rolled roofing stamped to imitate shingles or representing Mosaic roofing with inlaid red and gray-green slate. Each roll will cover 100 square feet and we will furnish long or short nails and cement.

No. 13-EX-9035. Roll roofing—Shingle Imitation—new stock.

## S-A-V-E!

We offer you here first quality 15-year  
**GUARANTEED** high grade standard  
weight shingles at way below market prices.

### Square Butt Slate Coated 4-in-1 Slab Asphalt Shingles

These shingles are made in standard Underwriters' specifications, surfaced in all styles with natural colored red, gray-green or blue-black crushed slate coating. There is no better standard shingle on the market. Slabs are 33 inches long, 10 inches wide. State color wanted. No. 13-EX-110. In squares of 100 square feet, weight about 200 lbs.

Price per square..... **\$6.50**

### Harris Slabs

The **ONLY** slab shingle that can be used to lay a variegated roof pattern. Slabs are 36 inches long and 11 inches deep. Requires less nails and labor to lay than any other shingle. Can be laid in alternate rows of red, gray-green or blue-black or in solid color. The alternate rows of the three colors give the roof a variegated appearance, showing hexagon tile effect over the entire roof.

Be sure and give the solid color preferred or specify variegated if you desire the new type of roof. The easiest slab on the market to lay—no slots—no clips—no tricks. No. 13-EX-120. Harris Slabs. Price per square of 100 sq. ft. .... **\$5.50**

### Slate Coated Individual Asphalt Shingles

Individual shingles of the same quality as the 4-in-1 shingles above. They are 9 inches by 12 $\frac{3}{4}$  inches in size and are laid 4 inches to the weather and  $\frac{1}{2}$  inch apart, nailed 5 inches from the butt of the shingle. In red, gray-green or blue-black. State color wanted. No. 13-EX-130. In squares of 100 square feet, weight about 240 lbs. Price per square. **\$6.30**

### SHINGLE SECONDS

We have on hand at all times, a limited quantity of Factory seconds in three distinct styles. These shingles are new, standard weight stock, but sorted as seconds because of slight imperfections in slate coating or color. Can be sorted with little waste and a good and satisfactory job be made. Slate coated in red, gray-green or blue-black. State color preferred.

No. 13-EX-170. Square Butt Four-in-One Slabs (Factory Seconds). Per square of 100 sq. ft. .... **\$4.50**

No. 13-EX-180. Doubletite Slabs—Same as Square Butt, except that the corners are cut from the butt of each shingle. Factory Seconds. Per Square of 100 sq. ft. .... **\$4.25**

No. 13-EX-190. Individual Shingles—Factory Seconds. Per square of 100 sq. ft. .... **\$4.00**

**BE SURE TO ORDER BY NUMBER AND STATE COLOR WANTED.**

# GOLD MEDAL WALLBOARD

**Rosin Sized—Vermin Proof—Will Take Paint—  
Calcimine—Stain—Grain—Varnish—  
Can Be Papered Over**

Gold Medal Wallboard is the nearest approach to wallboard perfection. It is a clean, neat and satisfactory wall or ceiling material—can be cut with a knife or saw without injury to either. Panels are nearly one-quarter of an inch thick—thoroughly dried and seasoned—can be nailed directly to rafters or studs 16 or 24 inches apart—makes a beautiful, permanent, sanitary and economical wall or ceiling. Cream colored in making—requires no decoration whatever. Will stand shocks, jars and vibrations that will bring down plaster—is a non-conductor—keeps out the cold and holds the heat inside in winter. Also cooler in summer.

## 80c

**Per Sheet**

### That Unused Space—Make a New Room of It

You can make new rooms, partition off a large one, line your attic, seal your basement and do all your work while you are living in your house without dampness as in plaster, and without dust or dirt of any kind; no crack filling is necessary—you can cover the seams with panel strips or with our gummed tape, making a clean, neat and complete job, and you can do it yourself without help and make a perfect fast job.

## House Paint Per Gallon \$1<sup>95</sup> In Barrels

**We Guarantee** every gallon of "Harris" house paint to be equal in every respect to the highest priced paints on the market. We guarantee that it will come up to your highest expectations in spreading and wearing qualities, appearance and fastness of color.

The purpose of this guarantee is to give you an assurance of satisfaction, and if you are not pleased in every way, or if for any reason you are not satisfied with your purchase of "Harris" house paint, we will replace every gallon you have purchased free of charge.

HARRIS BROTHERS COMPANY.

### NO BETTER PAINT AT ANY PRICE!

THE QUALITY of the paint you use should be more carefully considered than probably any other material you buy. The purchase of good paint is genuine economy. "Harris" house paint is good paint. It spreads with an evenness over the greatest possible surface and will wear the longest possible time. Pure linseed oil, lead and zinc are used as the main body. You can pay more for your paint, but you'll not get better paint. Pay less and you'll sacrifice quality.

# FENCING SPECIALS!

This field and poultry fencing offered at the low prices shown below represents the accumulation of leading fence factories' stocks of fencing that show minor defects. These defects though slight, prevent us from offering this as first class fencing. They consist in slight discolorations and an occasional manufacturing defect such as a loose wire. We guarantee this fencing to be good value for the price quoted.

## Galvanized Poultry Fencing

### Extra Heavy Weight

Extra heavy weight, close mesh, made of highest quality galvanized wire. 10 gauge top wires. 10 gauge bottom wires. 12 1/2 gauge stay and line wires. Stay wires spaced six inches apart.

5-foot opening..... 4.50

able expectation. The space at the bottom closes to 1 1/4 inches.

Uprights, No. 9 galvanized wire, crimped the entire length; cables, No. 12 1/2, heavily galvanized with space between the uprights at the bottom of 1 1/4 ins.; at the top, 2 1/2 ins. The cables are spaced 6 ins. apart, except the top space of 2 1/2 ins.

Height of fabric, inches..... 24 30 36 42 48 54 60  
2-EX-404. Price, per lineal foot..... 7c 8c 10c 11c 14c 17c 19c

## Harris Single Picket Lawn Fencing

Uprights are made of No. 9 heavy galvanized wire, crimped the entire length. Cabled line wires are of heavy galvanized wire, with stays between the uprights 2 1/2 inches. Cables are spaced 6 inches apart, except the top wire, which is spaced 2 1/2 inches. We can furnish same to you in the following sizes:

No. 2-EX-428. 24 ins. high. Per lin. ft..... 5c  
No. 2-EX-429. 30 ins. high. Per lin. ft..... 6c  
No. 2-EX-430. 36 ins. high. Per lin. ft..... 7c  
No. 2-EX-431. 42 ins. high. Per lin. ft..... 9c  
No. 2-EX-432. 48 ins. high. Per lin. ft..... 10c

The above fencing can be furnished in any continuous length up to 300 feet.

## Double Picket

This style, EX-404, differs from our 428, shown in small illustration in that we weave in an additional picket at the bottom, adding to the beauty of the design and also giving additional strength to the fence. It will stand use and abuse and the wear of time to the limit of reason.

Small illustration above shows section of No. 428 Single Picket Fence.

# Perfection Heating Systems

## Harris Recirculating Double-Casing Pipeless FURNACE

**\$69<sup>00</sup>**

Here is a NEW development in pipeless furnaces—a pipeless furnace that features all the best and latest improvements and overcomes all the objectionable difficulties found in other makes. Now offered at a tremendous saving. Represents in itself a complete heating system—ideal for the home, store, church, school or hall or for any building where the furnace can be placed in the basement near the center of the building. The one-register system of this furnace is a decided improvement. The heated air rises through the center part of the register and circulates through the doorways to all rooms, insuring an even, steady warmth in every corner of your home in the coldest weather. The air continues to rise while heated, then falls and returns to the furnace. This assures perfect circulation at all times and a uniform heat when you want it.

The heat is under complete control at all times and is easily regulated from the room directly above the furnace. Burns any kind of fuel with best results and is a wonderful fuel saver. The adjustable throat fits in any basement 6 to 8 feet high. Our complete instructions enable you to set it up yourself in a very short time.

Prices and Specifications—Shipment from Factory in Central Illinois or Eastern Michigan

## Harris Warm Air Super-Efficient Pipe FURNACE

**\$59<sup>00</sup>**  
**UP**

These furnaces are the product of one of America's foremost furnace factories and represent all that is best and latest in modern construction and newest features. Yet, our gigantic volume of sales makes it possible for us to buy and sell these splendid furnaces at prices no other firm can duplicate.

Almost instantaneous heat—an abundance of clean, moistened healthful warm air circulating through every nook and corner of your rooms—the utmost ease of control and its wonderful fuel-saving qualities—these are the features that make the Harris pipe furnace so extremely popular. The fresh air coming into the heating chamber through the cold air intakes and return register is cleaned and moistened by passing over the water pan, then heated in the upper part of the furnace, finally rising through the pipes to the rooms above. On cooling, the air is led back to the furnace through the return air register, remoistened, recleaned, and reheated. The result is even, steady heat and good ventilation. For moderate sized homes, schools, churches and halls where the furnace can be centrally located, the Harris warm-air pipe furnace cannot be improved upon. Full instructions and simple plans for easy installation furnished free.

# Free Engineering Service

## Special Money Saving Sale Offer!

Here is an offer that—if taken advantage of at once—will provide you with an excellent heating system without any worry or responsibility on your part and at a very considerable saving in cost. Just send us a rough sketch showing size and location of the rooms, number of doors and windows and their sizes, and the height of the ceiling and our engineers will send you a complete estimate of the best and most economical plant for your home—including all material for its installation—

BASED ON THE SPECIAL MONEY-SAVING PRICES SHOWN IN THIS SALE BOOK. You can install this system yourself—with our FREE blue prints and explicit instructions, anyone who can handle tools can easily do a perfect job of installing. This offer is good for 60 days only, so don't delay. If you are to save a great deal of money and a lot of worry, you must send us your specifications at once. Better be safe and send them TODAY!

### Perfection Round Sectional Heating Boilers

**\$93**

AND UP

Here is the most efficient and economically operated "Round Type" heating boiler for hot water and steam heating plants. Burns hard coal, soft coal, wood, coke or any other fuel with utmost satisfaction. Offered to you at an Advance Sale price that guarantees you a tremendous saving.

There is not a new improvement or feature, but that you will find in the Perfection. Made from the best grade of gray cast iron, smoothly finished. These boilers have proved all our claims by giving the utmost heat with the least amount of fuel. Every boiler is carefully tested.

SHIPPED FROM FACTORY IN EASTERN MICHIGAN OR CHICAGO

### Experts Are Waiting to HELP YOU

Take advantage of our expert Engineering Service—it's FREE. Spare yourself the worry and uncertainty, the possible costly mistakes. Our expert engineers will tell you just what plant is best and least expensive for your home, and the most economical way to install it. Leave it to them—they KNOW.

### OUR GUARANTEE

Every Perfection Heating System installed as directed by us, is guaranteed to heat the rooms where the radiators are placed to a temperature of 70 degrees in any weather and without undue forcing of the fire—or we refund your money and the freight charges you paid.

### Perfection Square Sectional Boilers

**\$72**

AND UP

The wonderful record of "Perfection" square type boilers for 20 years, in all climates, under all conditions has pointed it out as the one boiler you can absolutely pin your faith to.

Designed by experts who are leaders in this field, and built in one of the largest and most modern factories, Perfection systems leave nothing to be desired.

Wonderful fuel savers, they burn everything—wood, coke, hard coal, soft coal or any other fuel, and they get every ounce of heat out of it. Every section is smoothly and evenly cast in one piece from best gray iron, carefully tested for strength and endurance. A Perfection System will serve you faithfully and economically long after its low cost has been forgotten.

## Perfection Colonial Steam and Hot Water Radiators

Thoroughly Tested

THESE Colonial design radiators are smoothly made from best grey iron. Each section is expertly cast in one piece. All surfaces must be perfect because of the plain design without old-fashioned ornamentation which covered imperfect careless castings. Easy to finish with gold or aluminum paint—easy to keep clean and sanitary.

## Clear White Pine 1 3/8 Inches Thick

These windows are manufactured in our own shops. They are of clear white pine, kiln dried, mortised, pinned and sanded, glass extra strong tacked, and puttied with high quality putty.

All check rail windows are plowed and bored for sash cord and can be used either with or without weights. The check is the beveled rail where the two sash come together. The term "window" means two sash—upper, and lower.

When ordering be sure to give width first. Price includes both top and bottom sash.

Weight—A window 24x24 2 lights is considered an average size and weighs 22 pounds, shipping weight. Other sizes will weigh more or less in proportion to size.

Divided Light Window  
No. 10-EX-1344

No. 10-EX-1928. Clear Red Oak. Special Sale Price.....\$51.50  
Hardware for above, Lemon Brass or Antique Copper finish, \$1.60 additional.

**\$46.50** UP

## CLEAR FIR GARAGE DOORS

### Double and Triple-Fold

Our Garage and Warehouse Doors are made of Clear Kiln Dried Fir. The stiles and rails of the doors are mortised and wedged, which construction gives you not only a substantial door, but a door that is more durable. The panels are extra heavy, being set into the grooves of the stiles and rails by means of special machinery, making it practically impossible for the panel to warp or check. Water-proof glue is used on all our doors. In offering you these doors it is our intention to give you the best value obtainable for the money, and we must ask that you do not confuse these doors with the so-called "just-as-good-makes" on the market at the present time. Remember, our doors are made of Fir, of mortised and wedged construction, and equipped with durable panels—three distinct and essential features necessary to make a good garage or warehouse door.

Ashland No. 10-EX-502

No. 10-EX-502. Ashland Double Doors, for opening 8 ft. x 8 ft. Each door 8 ft. high, 4 ft. wide, 1 1/4 in. thick. Glass set with wood stops. Shipping weight, pair, about 200 lbs.

# Harris "Presto-Change" Screen Storm Doors

*A Storm and a Screen Door at the Price of One—Quickly and Easily Changed to a Storm Door in Winter, a Screen Door in Summer*

These are genuine "Presto-Change" combination doors with the patented quick change locking device, rattle and fool-proof, not the kind of doors where sections are fastened with hooks and eyes. Our splendid combination doors feature latest and best construction—tight joints smoothly sanded. Cost no more, but are much better. Once hung always hung—no tools needed to make change.

Our Combination Doors have reduced the changing time to a few minutes, and it is so simple that a child can make the change. Cannot be tampered with from outside.

The removable sections and openings in door are both rabbetted so that when section is in place there is a double lap joint which, together with improved patented fasteners, makes the door dustproof and weatherproof. **Patented Quick Change Locking Device.** Our improved patented fastener holds the sections securely in place—fly-proof, dust and weather-proof. Doors are quickly changed within a few moments.

Furnished Complete as shown with Glazed Storm and Wired Screen Sections.

*These Snapshots Tell the Story at a Glance*

The door is hung like any regular door—once hung always hung

Turn 4 fasteners, take out 1 section and put in the other section

Turn fasteners back and—that's all. No lost screws or hinges. No unsightly screw holes

Take the removed section and store it in your basement or closet for the summer or winter

## "Leader" Door (Illustrated Below)

Made of White Pine Lumber. The opening for the storm and screen sections is 43 3/4 inches high in all width doors. The storm section is divided into four (4) lights, and is glazed, while the Screen Section is covered with standard mesh Black Wire. We carry these doors in stock. PAINTED GRAY ONLY. 1 1/2 inch thick. Weight, 70 lbs.

**\$6<sup>78</sup><sub>Up</sub>**

## "Favorite" Door (Illustrated Below)

Made of CLEAR WHITE PINE 1 1/2 in. thick. Galvanized screen wire is used on screen section. Storm sections glazed with best grade of putty. The opening for the storm and screen sections is 4 feet 8 1/2 inches high in all size doors. Weight, 75 lbs.

# Famous Watts Corn Shellers

## A Few Reasons

**Why You Too Should Own  
A WATTS—And NO OTHER**

Because Watts Corn Shellers, in all sizes, are "The World's Best" machines; still you can buy them from us under most liberal terms, at big price reductions.

Because these shellers are the most simple machines of their kind ever built—about one-tenth the number of working parts as compared to other corn shellers—nothing to get out of order. No delays or waiting for repairs.

Because of their splendid construction and durability—no springs and nothing to wear out. Fewer bearings—less wearing parts.

Because they are the most economical corn shellers to operate. They give you greater capacity and require less power than any other corn sheller.

Because of their big capacity, they do your shelling in the least possible time and get all the corn.

Because they will shell corn in any condition. Irregular sizes, smallest to largest size ears—hard or soft—green or dry. Watts Shellers always shell perfectly and never crack the kernels.

Because any Watts Sheller gets all the corn on the cobs and will pay you a profit on the corn you have not been getting.

Because they have been manufactured and distributed for many years and have always proved themselves to be the best and most efficient corn shellers on the market.

Because there is a size to meet every requirement featuring finest workmanship, greatest durability, utmost efficiency, biggest capacity, least power and lowest prices.

**The World's Best Corn Shellers Now Offered at  
Prices So Low and on Terms So Reasonable  
You Should Not Delay a Moment Longer**

Even though you have no immediate use for a corn sheller, we urge you to buy now. All machines in stock at the present time ready for immediate shipment are made from material purchased by the Watts Manufacturing Company before the big price advances of the past year.

Corn growers in every section of the country are getting the full benefits of this great sale. Wherever corn shellers are used, you will find these Watts Machines, the world's best, strongly represented—the choice of men who know.

And remember, this great sale of ours not only offers these famous machines at big price reductions, but you can now buy your Watts Sheller under most liberal terms of payment, as fully outlined on the opposite page.

## 30 Days' Free Trial

Whether you send us cash in full with your order, deposit the money with your banker or buy your corn sheller on time in three payments, we want you to distinctly understand that your purchase is made under our liberal 30-day Free Trial. This will give you sufficient time to test and use the machine on your own work and convince yourself of the splendid purchase you have made.

## Liberal Guarantee

We insist that you be satisfied in every way with your purchase of any Watts Corn Shelling Outfit before we will consider the transaction closed. If you do not find the corn sheller sent you to be exactly as pictured and described in the pages of this book—or if for any reason whatsoever you are not satisfied, it may be returned to us at our expense and your money will be promptly returned without question or quibble.

# Only \$32<sup>50</sup> Cash Buys This Famous Sturdy Watts No. 1 Corn Sheller

**75 Bushels  
Per Hour**

**3 H. P.  
Engine**

**This is the smallest of the Watts Corn Sheller line. Recommended for shelling Feed Corn.**

This sturdy little machine is just the size for the man wishing to shell only enough corn for his own needs. It has a capacity of 75 bushels an hour and can be operated to best advantage with a 3 H. P. engine.

## The Ears Do the Shelling in Watts Shellers

A heavy cast iron cylinder, with lugs set in staggered rows, serves to keep the ears in motion. These lugs are set in spiral fashion so as to carry the cobs from one end of the shelling jacket to the other.

The No. 1 Watts Corn Sheller has proved to be very popular among stock feeders and farmers with small power. It shells the corn clean from the cob. When so desired, the bran and soft tips of the cobs can be removed with the corn. Many feeders are replacing their cob crushers with a Watts No. 1 Sheller. This machine will shell ears of any size, in any condition, if clean husked.

**36-EX-900.** Watts No. 1 Sheller, capacity 50 to 75 bushels per hour, length 3 feet 7 inches, width 3 feet, height 3 feet 9 inches, speed, 800 R. P. M., equipped with 8x4 inch drive pulley. Weight about 180 pounds.

Price, cash with order.....**\$32.50**

Price, cash after 30 days.....**\$33.50**

## An Important, Exclusive Feature of Watts Construction

The heavy cast iron cylinder, illustrated at the right, is what does the work in the Watts No. 1 and No. 10 Shellers. It is mounted on a heavy steel shaft running in babbitted bearings. The lugs serve to keep the ears in motion, and being set on the cylinder in spiral fashion, carrying the cobs from one end to the other, the Watts Sheller cleans the cob without cracking the kernels.

# at Big Price Reductions!

**\$70<sup>32</sup>**

Cash With Order

Cleanly shells 75 to 125 bushels per hour with 5 H. P. to 7 H. P. Engine.

**30 Days  
FREE  
Trial**

The above illustration shows a Watts No. 10 Corn Sheller. It is 3 ft. long, 3 ft. wide, 4 ft. high. It is furnished complete with 8 ft. corn elevator and 10 ft. cob stacker. Lagged drive pulley 8 in. diameter, 6 in. face, speed 800 R. P. M. Shipping weight, complete as illustrated, 500 pounds.

## to Take Care of Your Own Needs and Those of a Few Neighbors

This machine is constructed along the same lines as the Watts No. 1 Machine, except that it has a larger capacity and is equipped with a cob stacker and grain elevator. It shells, cleans and loads all the corn and stacks the cobs.

When the shelled corn leaves the shelling jacket, the separation of the corn and cob takes place instantly. The cobs are elevated by the cob stacker. Any corn which remains on the cobs after they leave the cylinder is removed by the oscillating sieve and drops down with the other corn on the cleaning sieve. In this way the corn is saved which is usually thrown out with the cobs. When the corn drops down through the sieve, it is spouted upward through the elevator into your wagon thoroughly cleaned by the cleaning fan.

The Watts No. 10 Shelling Outfit has a capacity of from 75 to 125 bushels per hour and can be operated with utmost efficiency from any engine developing from 5 H. P. to 8 H. P. This machine and all other sizes of Watts Shellers are sold through either of three plans, which are described in detail at the foot of this page. And remember that, regardless of which plan of payment you choose, you are under no obligations to keep the machine if after 30 days you find that it does not do every bit as much as we claim for it.

No. 36-EX-901. Watts No. 10 Corn Shelling Outfit, with cleaning system, cob stacker and grain elevator, complete. Shipping weight complete, about 500 lbs.

Price, cash with order.....**\$70.32**  
Price, cash after 30 days.....**\$72.50**

# Watts No. 10 All Metal Corn Sheller

## Complete With Automatic Feeder

This machine is identical with the No. 10 Sheller, but in addition it is equipped with an automatic feeder.

An automatic feeder is a very valuable asset to a corn shelling outfit in that it keeps the shelling chamber filled to just the right capacity to insure the greatest output of shelled corn at all times. It saves labor, time and corn.

The Watts No. 10 Corn Sheller with automatic feeder is just the outfit for the man who wishes to do all of his own shelling and in addition do some shelling for his neighbors.

This outfit is backed by the same liberal guarantee and is sold under the same terms that have made all sizes of Watts Shellers so popular among corn feeders everywhere. The 30-day free trial offer also applies to this outfit.

The difference in sale prices on this machine complete with automatic feeder and the Watts No. 10 without the feeder is but a matter of a few dollars that will be quickly saved in time, labor and corn.

No. 36-EX-902. Watts No. 10 all metal Corn Shelling Outfit, complete with an automatic feeder, cleaning system, cob stacker and grain elevator. Shipping weight about 600 lbs.

## Harris Cream Getter

In this wonderful 500-lb. capacity Harris "Cream Getter" we offer you a separator value that leaves all competition hopelessly behind. This separator is extremely popular—popular because of its handy size, popular because of its peerless skimming efficiency and extremely low price. In all parts of the country, at all seasons, it has carried off every farm test with flying colors.

Produced by expert separator builders in one of the finest, best equipped and most modern factories in the world, this latest model requires but one tool in the daily handling—the spanner part of the combination wrench. Has an oil splash lubricating system that never fails or goes wrong and many exclusive patented improvements to be found in no other machine.

### Unusual Trial Offer

Try this separator for any reasonable time. You do not have to make up your mind in any certain number of days or weeks. See Guarantee alongside. Price below includes all accessories F. O. B. Lancaster, Pa., Chicago, or St. Paul, Minn., warehouses. Shipping weight, about 175 lbs.

**No. 27-EX-500. Size No. 5, 500 lb. capacity.**

**Special Sale Price..... \$47.50**

Dimensions: 24 inches to top of supply can. Capacity of supply can, fourteen quarts.

### Easy To Buy

**Plan No. 1.** One third with your order and balance two months and four months to your own bank. Add \$2.50 to printed prices for cost of handling. Give us the name of your bank.

**Plan No. 2.** Purchase price to be deposited with your banker thirty days. Send with your order a letter from your banker. Thirty days should be sufficient time for you to make up your mind.

**Plan No. 3.** Cash in full before shipment secures an additional saving of 3 per cent.

## You Can't Beat the Cream Getter

As the bowl is the heart of a Cream Separator so is the Distributing Sleeve the Heart of the "Cream Getter" Bowl.

The above illustration shows the equalizing, distributing and clarifying sleeve and how it completes the proper bowl construction. This is what has been lacking heretofore in Cream Separators and what you need to get the greatest efficiency in the capacity desired with a lighter, easier turning bowl. Other exclusive improvements are the patented Safety Steel Clutch, Radial Cushion, Neck Bearing Spring and Alarm Bell Speed Indicator.

**\$30**

## Cream Getter Junior

**Capacity 300 Lbs. Per Hour**

**Large Capacity—Low in Price—**which is made possible by simplicity of construction and a large number of sales.

**Our Regular Bowl** as above illustrated, is furnished with the "Cream Getter" Junior.

All Gearing enclosed and oiled by Splash System. Latest design, same high grade material and workmanship used throughout as found in our regular Harris "Cream Getter."

**Do not waste money** by giving your whole milk to the pigs or skimming by old-fashioned methods. Every ounce of butter fat means money to you.

The low price makes it possible for you to own this separator which will take care of the average small herd and pay for itself in a short while.

**27-EX-150. Without Stand. Weight, 80 lbs. \$30.00**

**27-EX-151. With Stand as illustrated.**

**Wt., 110 lbs.. \$37.50**

## GUARANTEE

We guarantee the Harris "Cream Getter" Cream Separator to be the best you can buy regardless of name, price or make.

We guarantee that if, after you get the Cream Getter, within reasonable time you find you can get any other make at any price which is better according to capacity, we will give you return shipping instructions and refund all of the money you have paid us on the Cream Getter, plus freight charges.

We guarantee the Separator against defects in material and workmanship as long as it lasts and that we will supply repair parts should any ever be needed.

**Plan No. 2.** If you wish to examine and use the engine for thirty days, send us a letter from your banker stating that the full sale price has been deposited with him and will be sent to us when you are fully satisfied.

**Plan No. 3.** If you wish to buy your engine on time in three payments—an extra charge of \$2.50 will be necessary to cover our bookkeeping expense. Send one-third of the amount with your order and blanks will be sent for your signature for the balance to be paid one-third in two months and one-third in four months.

## Rumely Advance Ensilage Cutter

**\$125**

THE Big Complete Silage Cutter, all mounted complete on Steel Horse Trucks. Equipped with dependable sure-acting safety device. Can be fed from either side without any change whatever. The starting, stopping and reversing of the carrier can be done from one side or the other with equal ease. An iron yoke is placed directly over the hopper, extending from one side of the feed opening to the other. One end of this is connected with a clutch collar and bevel gear arrangement in such a manner that it can be used as a lever to start, stop, or reverse both the chain carrier and the feed rolls. The Advance Safety Cutter is equipped with one of the best sure-acting Safety Devices; in fact, is the pioneer machine of its kind to be so equipped.

There are four cutter knives used in the Advance Silage Cutter. These are straight, efficient and strong. The chain carrier conveys the material that is to be cut into the feed rolls. It is made of hardwood slats, placed close together, so that no litter can drop between them. The slats are firmly riveted to a double sprocket chain.

The delivery pipe is made of No. 22 galvanized steel, 8 inches in diameter.

On each end of each section a malleable iron ring is fixed. Each ring has eight holes. Only four of these are used at a time for bolting the sections together—the other four are provided, so that the pipe can be twisted around, as desired, to turn the distributor in any direction.

The delivery pipe is made light, so that it can be put up readily. It is made strong, so that it cannot easily be bent out of shape nor worn by the friction of the silage.

**A 15-inch machine of large capacity now yours at a low price.**

10 to 18 H. P. Engine runs it.

The self-feed chews up any kind of silage as fast as you can feed it. Capacity 10 to 15 tons per hour.

The delivery pipe used with the Advance Silage Cutter is not only smooth inside, to reduce friction; it is also made practically air tight, so that none of the force of the blast is lost on the way—it is all used to carry the silage to the top of the silo. The top of the distributor hood is reinforced by a steel sheet, where the silage strikes it with greatest force in being deflected. This sheet resists the great wear at this point.

## Specifications are as Follows:

# Belting SNAPS

To the keen, posted buyer who is constantly on the lookout for unusual bargains, we offer here savings on brand new belting remnants—as well as on regular stock belting—which he certainly cannot afford to overlook. These remnants are not second-hand odds and ends to be got rid of at any price, but brand new rubber and canvas belt remnants that have accumulated from our recent big sale of regular stock, varying in length from 12 feet up. No matter how short or how long the belt you want, we can furnish it to you at these slashed prices. If we have no remnant long enough for your require-

ments we will lace one securely together from two remnants—in no case from more than three. We very seldom find it necessary to do that, for our selection is very large, but when we do have to, we do a thorough job, using only the most durable, smooth running patent wire lacing. If desired, we will lace the belt for you endless without extra charge.

If you must have the belting in one piece, or if the belting you want is not listed here, be sure to write us—we can satisfy you. Also, if you order rubber belting, let us know whether you can use canvas belting in case we are out of rubber.

The bath tub furnished is 5 feet long and 30 inches wide; massive and well proportioned. Heavily coated on the inside and over the 3-inch roll rim with white porcelain enamel. Fitted with nickel-plated compression double bath cock indexed for hot and cold water; nickel-plated connected waste and overflow and supply pipes.

The closet outfit includes an improved wash down type vitreous earthenware bowl and plain neat white vitreous earthenware tank; fitted with Douglas pattern perfect action valve. All tank fittings are made of heavy brass and copper; operated with China lever in front. The closet seat and cover are highly finished in mahogany and attached to the bowl with nickel-plated bar hinges.

The deep apron lavatory is coated with white porcelain enamel and measures 18 x 21 inches with 8-inch back and "D" pattern bowl, size 10 1/2 x 14 1/2 inches. Fitted with two nickel-plated compression faucets with China tops indexed for hot and cold water. Nickel-plated 1 1/2-in. "P" trap to wall and 3/4-in. nickel-plated supply pipes.
